## 316 GRADE STAINLESS STEEL

Arcus Wire Group's Medium Link Chain is sourced from one of the largest stainless steel chain manufacturers in Asia to exacting ISO9001(2015) standards.

Available in a range of sizes, the G316 Medium Link Chain is commonly used in the shade sail industry, as well as architectural projects and general marine applications.

As with all products supplied by Arcus Wire Group, Mill certificates are available on request for all G316 Medium Link Chain orders.

Importantly, the G316 Medium Link Chain is not suitable for lifting purposes or anchor winch applications. Please contact the Arcus Wire Group team for information about products suitable for these applications.
