Your go-to supplier for Wire Rope and Fittings

We Supply

- **Wire Rope** - Stainless Steel and Galvanised wire ropes in a range of sizes from 0.8mm to 36mm
- **Chain** - Stainless Steel chain in various sizes from 6mm to 12mm
- **Fittings** - Stainless Steel and Galvanised fittings from small quantities to volume supply
- **Swaging and Testing** - Terminal and ferrule swaging of cable assemblies up to 40mm, made to order and tested to specific tolerances on our 60t and 300t test beds
- **Customised Fittings** - Design and 3D printing of fittings to meet specific applications

INNOVATION

With innovation at our core, we continually bring new products to the market. In the 1990s, we were first to introduce G316 wire rope across Australia. More recently in 2019, we were first to release Duplex 2205 wire rope and fittings. These were a key component of our ASSDA Fabricator of the Year Award in 2022, and went on to win a Silver Award (Market Development) from the International Stainless Steel Forum - World Stainless in 2023.

EXPERTISE

With over 60 years of industry experience, Arcus Wire Group proudly delivers the knowledge, expertise, and technical capability to support projects of any size or complexity.

INDUSTRY ACCREDITATION

Arcus Wire Group is a silver member of the Australian Stainless Steel Development Association (ASSDA) and an ASSDA Accredited Fabricator. This means that we have the knowledge and skills to supply and manufacture custom stainless steel.

Arcus Wire Group is also a member of The Australian Industry Group and The Australian International Marine Export Group.

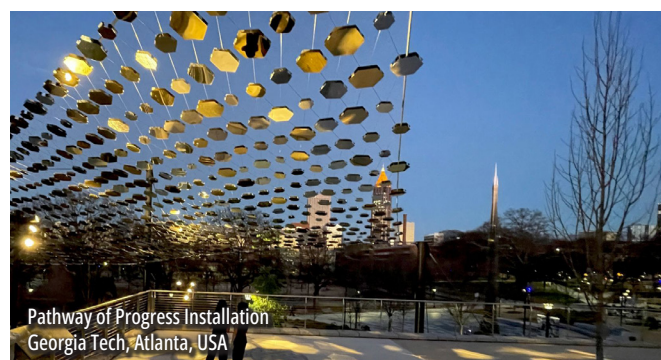

CALL US TODAY

For more information about our products, cable manufacturing and testing services, contact our team on 1800 ARCUSW (1800 272 879).

We are Australia's leading wholesale supplier of wire rope and fittings. Our products are sold exclusively to our wholesale customers across the region.

Josh Sheedy, Group General Manager

AWARD WINNING EXCELLENCE

Recognised across Australia and internationally, our stainless steel solutions set the benchmark for innovation, precision, and performance.

From bespoke fittings to premium wire rope and cable supply, we deliver complex solutions for award-winning projects, including the Pathway of Progress installation at Georgia Tech (Atlanta, USA) and a specialised guiding system for a hydroelectric station in the Middle East.

Backed by over 60 years of expertise, our work reflects a steadfast commitment to Australian manufacturing, strong global partnerships, and an uncompromising pursuit of excellence.

EXCLUSIVELY DISTRIBUTED BY ARCUS
WIRE GROUP ACROSS AUSTRALIA

INDUSTRY LEADING STAINLESS STEEL WIRE ROPE

hamma® stainless steel wire rope is manufactured by the world's leading producer of stainless steel wire rope, Korea Original Stainless (KOS). Ideal for marine, industrial and architectural projects, the hamma® range is exclusively distributed by Arcus Wire Group across Australia.

hamma® stainless steel wire rope features unique characteristics to ensure the highest quality and is ideal for:

Marine - ocean going vessels including yacht rigging for leisure and racing yachts;

Architectural - tensile cable systems for glass facades, cable nets, catenary artworks and lighting, shade sails and lightweight tensile membrane structures; and

Industrial - wide range of applications enabled by our extensive hamma® X range and, for the most demanding projects, our high-strength, corrosion resistant Duplex 2205 cable assemblies.

Designed and manufactured to rigorous global standards, all hamma® products carry a **10-year warranty** against defects/workmanship from date of purchase.

See www.arcuswire.com for terms and conditions.

INDUSTRY LEADING STAINLESS STEEL FITTINGS

The industry leading hamma® range of stainless steel fittings are designed and manufactured by global leaders Kinzi.

Kinzi has been supplying stainless steel hardware to companies worldwide since 1971. Kinzi's in-house design, engineering and mould facility controls the manufacturing process from concept to finished product. With an understanding of product applications, Kinzi develops products utilising the right materials for the job and determines the most efficient production process.

GALVANISED WIRE ROPE

Galvex galvanised wire rope is engineered for demanding commercial and industrial applications, including lifting and heavy-duty use.

Available in a range of constructions including 7x7, 1x19, 7x19, 19x7, 6x19FC, 6x25 and coated options, delivering strength and reliability across every application.

The Galvex range is exclusively distributed by Arcus Wire Group across Australia.

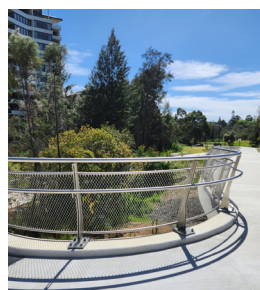

STAINLESS STEEL HARDWARE & CHAIN

e-series stainless steel fittings and chain deliver practical, reliable performance across marine, industrial and architectural applications.

Designed for everyday trade use, the range offers dependable stainless steel performance at a competitive price point without compromising on quality or reliability.

The e-series range is exclusively distributed by Arcus Wire Group across Australia.

STAINLESS STEEL CABLE MESH

Flexi-Mesh stainless steel architectural cable mesh is an industry leading material used to create lightweight structures including balustrades, zoological, fall protection, green walls, and playgrounds.

Made from hamma® stainless steel wire, the Flexi-Mesh range is exclusively distributed by Arcus Wire Group across Australia.

LIFTING SOLUTIONS

Part of the Arcus Wire Group, Sydney Lifting Equipment delivers trusted lifting solutions.

Products include lifting chains, slings, hoists, materials handling equipment, hydraulics, height safety equipment and more.

Services include inspections, testing and repair, helping customers maintain safe, compliant, and reliable lifting equipment.

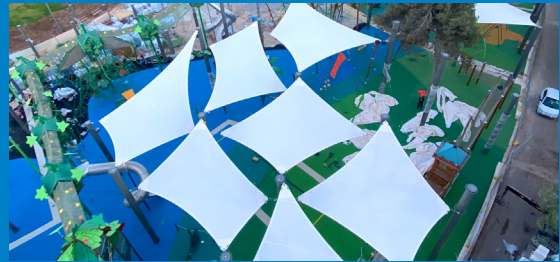

Industry leading products across the marine, industrial and architectural sectors.

YACHT RIGGING

We supply yacht rigging for leisure and racing yachts. Photo shows Lisa Blair's yacht Climate Action Now which we supplied with hamma® Regatta Wire Rope and Fittings, to support Lisa Blair's epic adventure to be the first woman to sail solo, non-stop and unassisted around Antarctica.

SHADE SAILS

We supply the full range of products and swaging tools for shade sail installations. Photo shows hamma® Industrial Wire Rope and Fittings installed on a Shade Sail Structure in Ramat Gan National Park, Israel.

ARCHITECTURAL

We supply wire rope, fittings and cast stainless steel solutions for bespoke architectural projects including 2,500 stainless steel artworks for the Pathway of Progress at The Georgia Institute of Technology in the USA.

BALUSTRADING

We supply the full range of products and swaging tools for internal and external balustrading projects. A popular product for balustrading is our stainless steel cable mesh – Flexi-Mesh. Photo shows Flexi-Mesh and hamma® Regatta Wire Rope and Fittings installed at Alfred Street Pedestrian Bridge in Parramatta.

MANUFACTURING AND TESTING

FROM OUR MANUFACTURING BASE IN QUEENSLAND, AUSTRALIA, WE MANUFACTURE AND TEST CABLE ASSEMBLIES FROM 1MM TO 40MM.

Utilising our hydraulic swaging machines, and 60t and 300t test beds, our expert team manufactures and tests cable assemblies for small to large scale projects which are delivered to customers across Australia and internationally.

Recent projects include balustrading for pedestrian walkways, 325kg hamma® Duplex cables for a hydroelectric power station in Israel, and over 5,400 stainless steel cable assemblies of hamma® X cables for an outdoor project in Hong Kong.
